

ANOMET TITANIUM CLAD COPPER

Anomet Products is the leader in the production of clad rod and wire products including a line of titanium clad copper rod and bar products. Anomet Titanium Clad Copper Bus Bar utilizes CP Titanium metallurgically bonded to an OFHC Copper Core.

Anomet Ti Clad Copper has excellent conductivity and is fully ductile for shaping and forming. Ti Clad Copper also has great weld-ability for connecting, capping, and joining. Anomet's custom processing methods allow for a wider variety of titanium to copper ratios.

Anomet Ti Clad Copper can be cut to length and packaged to customer requirements. Anomet also offers complete metallurgical services for testing and quality control.

Please call or email for more information and pricing on Anomet Ti Clad Copper and other products offered by Anomet.
